She?s the attraction at night, she turns you on
She?s a heartbreaker

She walks around in her nest, controls your mind
She?s a man eater

I?ve got what I want at home, (don?t tease me)
You know that I?m not alone, (please leave me)
She?s living on the edge, and she will never
understand

That I?m a man, a one woman man
(And I will always stay true to my love)
'Cause when you feel it, you will understand, that I?m a
man
(I?m gonna love you like a man) - a one woman man

The man who touches her skin, will get a scare
And it will stay on forever

She bites back in your dreams, and won?t let go when
you scream
Good and bad goes together

(I?ve got, what I want) Please don?t try
(I?ve got, what I need) Don?t you push me, no
I?m going to show you what I am, show you who I am
