Yeaah Yeaah

I just wanna be your man, mmm
and show you who I am
But I won't rush my love for you
if you don't feel it too
Come with me and you will see
how deep my love for you can be

If you let me know then I can let go
and release me from you
and if you don't tell me then I wont break free
like a lion in a zoo, but...

Come with me and I wont let you go
Come with me and I will let you know
on and on, that I'll be right here next to you

No one's ever gonna let you down
not as long as you got me around
I'll be, right here next to you

I am right here baby, yeaah

I am feeling it inside please let me stay here for the
night
Tell me how you feel just let me know
Baby, should I stay, or should I go
and if you let me know then I can let go and release me
from you
if you don't tell me then I won't break free like a lion in
a zoo

Yeaah

Come with me and I wont let you go
Come with me and I will let you know on and on
Ill be right here next to you
No one is ever gonna let you down
not as long as you got me around
You got me around

Right here next to you

Yeaaah

The days go by, I watch you cry
Just let me be the one who wipes away your tears at
night

Come with me
I won't let you go
(Come with me)
No no
(On and on)
I'll be right here next to you

Come with me and I won't let you go
Come with me and I will let you know on and on
I'll be right here next to you
No one is ever gonna let you down
not as long as you got me around
You got me around
Right here next to you
