Intro :

In America today,

every 25 fucking

seconds someone

is viciously raped,

someone is

brutally violated;

250 times a day

someone is murdered,

someone's life is taken,

In America;

This is America

This is America

and I love America,

I love America !

No remorse for the pain

Look into the eyes of death

Strong man cannot endure

Big god of this earth

Liar !

Big god, no god !

Take back this life

Give back the world

Woe to you

of Earth and sea

Big god will always be

Liar !

Big god, no god !

Burn !

Raped Souls :

God raped souls

Of our lives

Hammers crush all our lives

Just like clockwork

They'll crush our lives
