Intro:

In America today,

every 25 fucking

seconds someone

is viciously raped,

someone is

brutally violated;

250 times a day

someone is murdered,

someone's life is taken,

In America;

This is America

This is America

and I love America,

I love America!

No remorse for the pain

Look into the eyes of death

Strong man cannot endure

Big god of this earth

Lair!

Big god, no god!

Take back this life

Give back the world

"Woe to you

of Earth and sea"

Big god will always be

Lair!

Big god, no god!

Burn!

Raped souls:

God raped souls

Of our lives

Hammers crush all our lives

Just like clockwork

They'll crush our lives
