These weapons of mass destruction

Around our world, threat to us all!

Operated by fears, cold over years

Systematic death, terminal breath!

Leaders of our time just stand behind

An arsenal to end us all!

Fighting a war, we can't ignore Destined to fall,
cowards to all!...

We are losing, weapons controlling

This is the hour of your reckoning

These weapons of mass destruction

Around our world, threat to us all!

Fighting a war we can't ignore Destined to fall, cowards
to all!...

We are losing, weapons controlling

This is the hour of your reckoning

No more arsenal threatens all

Heading for a downfall

Mass destruction, mass destruction

Mass destruction for all

Coward
