Violence in my head

Like a thorn that pierced my skin

Spilling strength on the floor where i stand

It surrounds me, controls me

Shows weakness inside me

Surrounds me, controls me

Shows weakness inside me

They've tried to kill me

But they won't succeed!

No one

No one

No one can deny!

Sadness in my heart

Like a storm that ripped apart

All the fragments of what was happiness

It takes over, and numbs me

Shows the fear inside me

Takes over and numbs me

Shows the fear inside me

They've tried to kill me

But they won't succeed!

No one

No one

No one can deny x2

Take one, take one more shot, one more shot at me x2

And believe! x2

Take one, take one more shot, one more shot at me x2

And believe! x2

Takes over and numbs me

Shows the fear inside me

Inside! x2

Inside my head!

No one

No one

No one can deny x2

No one x4
