Hey you! Wake up!

open your swollen eyes

Erosion invades your mind

A cancer that grows over time

Hey you! Rise up!

Rise to fight, eliminate

Burn your fuse to detonate

The human machines of hate

All these years they've tried to break you

To your knees

Anger scours right through your veins

Now it's time to put an end

To all the lies

Now it's time to take control

Of your life

Wake up! Rise up!

Open minds will dominate

Burn your fuse to detonate

The human machines of hate

All these years they've tried to break you

To your knees

Anger scours right through your veins

Now it's time to put an end

To all the lies

Now it's time to take control

Of your life life life life

Hypocrisy

You can't believe

Machines of hate

A disease that infiltrates

Persist for resistance

Resist their insolence

You are a dissident

Burn away conformity

Persist for resistance

Resist their insolence

You are a dissident

Burn away conformity

All these years they've tried to break you

To your knees

Anger scours right through your veins

Now it's time to put an end

To all the lies

Now it's time to take control

Of your life

They have tried to break you

They have tried to break you

They have tried to break you

They have tried to break you
