Take my hand Take it good and
Don't let go Cause I'm already cold
Second chance Silverdance
All Her Soldiers Gone To france

Shake it off Put it on
Let the queen give right or wrong
Let the flow Stop and go
Give it up 'cause now I

Slowly see her ignite before my naked eyes
Gently spread it and keep your promises

When you doubt
give a shout
'cause I might just be the one you need
when you're Free come to me
pretty sure I am the light you walk into
when the night is throug
I will give my self to you

Let me touch Let me smell
Climb the wall and ring the bell
Sell it out Feed your mouth
Let it shout 'cause now I

Slowly see her ignite before my naked eyes
Gently spread it and keep your promises...

NOTE: "The Silverdance" or "Silverdansen" in swedish,
first apeared in Arvika 2006 during a concert with Franz
Ferdinand. Tommy Petterson is the founder of the
dance.
