The velvet fog came after the sun wept her last rays  
Shedding her tears for the night,  
The night she'll never see  
The all-seeing eye, the dead light of luna  
Watched as the gloom gently closed the flowers  
But the ones I laid upon her  
Stayed open to mourn my loss

The night air never hurt so deep  
As it whispered praises of despair  
To keep in this lonely heart

These fingers cut the wet flesh  
Bleeding red rivers through my face  
On my weak kness I wept, but death stayed there  
Until I lost her to gloom, beauty and despair  
Please open your eyes  
Please don't fade away  
I won't let you leave me  
I'll follow you through it all  
Wherever it will lead me  
I will follow

Deeper into the pain  
Further away, for her  
I step down to where tears remain  
Over the frozen rivers  
Through the land of the dead  
Forever lost and bound in woe  
Of my ropes of sorrow I wouldn't let go  
They hanged me to this place I fell  
Alone and blind I travel in my hell  
Forever and forever and forever alone
