"Peace Of Mind"

I saw my boy today
Between phonecalls and sighs
He kissed my forehead
To see if I was alright
It's been a crazy week
A rollercoaster ride
We need to get away
We need a place to hide
I have a big old car
And we drove it away
We hit the coastline
At the end of the day
The sun is dying
We have the night to ourselves
We look for sanctuary
Looking for a trail
As we walk among the stars
And the moon is hanging right
Above our heads
Then we can find
Peace of mind
You do the butterfly
I like to crawl
The water shines like
Silver and gold
I swim out further
To the real deep sea
I have the strongest boy
Looking out for me
As we walk among the stars
And the moon is hanging right
Above our heads
Then we can find
Peace of mind
