Tabloid magazines are made in hell
The falling stars are getting sucked down
We get seduced easy
We. Get
We get seduced

Sell us magazines about the stars
And watch us stare into the void
What not to wear to the awards
Whose tit escaped on camera
Now these creeps are climbing up the trees
The neighbors calling the police
They're snapping pictures by the pool
We get seduced so easy

Checkout clerks all thumping toward the page
An A-list starlet shaved her brains
while starving millionaires complain
"TV makes their ass fat"

Tell us, how rad is it living in a microscope?
Broadcast into every single living room?
Hot lights on your love life
Let me buy close up tabloid shots of your cellulite

Hypnotizing pages of advice
From their demented fashion do's or dies
Who put this hook inside my mouth? you?
You're getting so obsessed it's all we talk about
We're gossip hounds on the couch

How rad is it living in a microscope?
Broadcast into every single living room?
Hot lights on your love life
It's not love
That's sex on the first night

How rad is it living in a microscope?
Broadcast into every single living room?
Hot lights on your love life
Let me buy close-up tabloid shots of your cellulite
