Some people get bit from the inside
When they talk it's cold and sour
And no, there's nothing they can do now
They've had their way too many times
If you glare to get what you want
It'll become your look
And if there's dirt you got on someone
You let it loose without a thought

Just let the poison spill
Spurt from your throat
Hiss like steam
'Cause the pressure's unreal
I'm not saying that it's not
You're causing a scene (hey, hey)

You're wearing out that note
You scream until it's gone
You scream until it's gone, gone, gone

No government check can reverse it
You need a royal eclipse of the tounge
Or is the pain that you endure now
Something you need but you know how to get it now

And there's no climbing up that list
You just move down it one by one
You hate this and this and love that it shows
You're insecure, but that's no excuse

Just tell 'em they lie
You tell them truth
The things you take
Are coming in groups
The people abused
The trust you had
And now you don't want it back

Just let the poison spill
Spurt from your throat
Hiss like steam

'Cause the pressure's unreal
I'm not saying that it's not
You're causing a scene (hey, hey)

You're wearing out that note
You scream until it's gone
You scream until it's gone, gone, gone
