

Faint, The "Paranoiattack"

The news has got me paranoid
Papers and the news reports
Casualties of every war
Anchor people keeping score
The weapons now are chemicals
In water and in edibles
Circulating envelopes
And powder through the postal route

The threat of a disease is here
We nipped it once without a cure
It took forever 'til it stopped
The mandatory needle shots
They gave us all a little dose
To teach our bodies how to cope
Finally when we had it licked
Some terrorists are back with it

The propagandas working now
I'm falling for it hook and reel
I'm stocking up on medicine
Buying tape to seal ourself in

Paranoia! (x12)

Paranoia attack,
Paranoia war,
Paranoia seems like a bomb.

Paranoia threat,
Paranoia fact,
Paranoia drops bombs.

Paranoia.
