i see you work at night, are you sexually amused?  
what's it like to have a room of guys encircling you?  
how she moves and how she walks  
they all patiently await  
while the heat from in their pockets could burn marks  
into their legs.  
without your needs and your support  
she'd have a job the same as ours - nothing daring.  
would she miss a job that's sexual?

in every city there are dozens of these clubs where  
men can go.  
some people need a little challenge to their fantasies  
at home.  
There's a little tiny number on a fold of matches,  
the ink drips from a little dancer's pen.  
everybody wants that fold of matches  
to reinflate their confidence.  
hey, its a job, it pays a lot.  
is it disservicing someone?  
and is it good to get these men worked up so sexual?

older dancers gag at what new talent seems to mean.  
smaller tits and younger limbs can cause a fit of rivalry.  
but its a job, it pays a lot.  
is it disservicing someone?  
and is it good to get these men worked up so sexual?
