Musicians / animal targets

We are a band

And not a band of animals

This masquerade

Is more than I can bear

There goes my reputation

It's awful, this humiliation

And I've the lion's share

Nobledudes and dudettes

Day after day all the prince every does

Is practice, practice, practice

Queen Uberta

Thinking of her and the way that it was

Nobledudes and dudettes

Practice, practice, practice

Hans / Duck

He's not happy 'til he has attacked us

Nobledudes and dudettes

Day after day all the prince ever does

Is practice, practice, practice

Thinking of her and the way that it as

Practice, practice, practice

Musicians / animals

If we refused then he would have sacked us

So we face a life of target

Nobledudes and dudettes & the musicians / animals

Practice, practice, practice
