Yeah,

[Chorus: x2]

Little Derek's Doing Okay (yeah)

Little Derek's Doing Fine (fine)

Little Derek's Doing Cool (cool)

You know how we do

[Verse 1:]

Stepped out my house i'm feelin fresh and brand new

Olu did the trimmy and I done the hairdo

And everything i wear's new, Mahadashi jacket, Puma top, boxfresh jeans and Nike cam boots.

Sprayed a little versace dreamer on me too

so every girl who pass is like ooh wooh

Police don't pull us over like woo woo

cos they're kids watch MTV and Channel U (U)

But life ain't always been fine like baby blue

cuz when u do UK rap you're number two

cuz the USA ain't givin us space to break true

so i'm on the grind tryin to pioneer a break-through

gotta keep the punters happy, to tango it takes two

and it seems like i'm the rapper the people take to

i've never had alot, with what i've got i've made do

now i'm blowin up up in this bitch like move, move, move!

[Chorus x2]

[Verse 2:]

Step out the ride i'm feelin nice and quite fly

I'm tryin to reach the top i see the top is quite high!

Steady on my grind tryin to get my face up in the source

so i keep my faith up in the forces in the bright, white sky

gettin calls from these record label bosses like 'Hi'!

head up in inside their offices

and listen to their promises

but no-ones made me offers yet

that I could not deny

And i been makin profits of this my mix-tapes raw
life ain't always been pretty like nah
on the north side of the city
where it's gritty like pie
we did what we had to done to get by
hopin not to get caught up in no silly drive by
little derek wrote lyrics while the others got high
and he ended up in HMV instead of HMP
cos street life could only end one way
your friend cryin on the scene like why, why, why?

[Chorus x2]

[Verse 3: Baby Blue]

Knowin real fame that's what i used to dream about
that everyone would know my name and they would
scream it out
knowin my song words and sing along to it now
and i would walk down the street and hear blue, blue,
blue.
my video's rotatin so i got these execs debating
about whether i'm takin
and these RnB guys is thinking the same thing
calling up my phone asking whether i'm dating.
I turned my passion to career how could i lose out
quit my 9-5 so i don't have to sell shows now
my CDs are moving
that's the route that I'm choosing
so i got to make it thru, thru, thru
little Rachael used to look up to the sky too
analyse the planets and wonder if i could shine too
so now they ask how i'm doin i say
little Rachael's doing okay

[Chorus x2]
