Spoken: I'd like to solve the puzzle.....The Eden Effect
That's it

I wanna play
I wanna play the blame game
I always find
it makes me feel better on the inside
Give it a try
No need to take responsibility
Why don't you play?
C'mon and play the blame game now

Blame it on someone you're hating
Blame it on someone who's innocent
Blame it on someone who's old
They won't remember anyway
and.....

Who did it? It's your girlfriend's fault
Who did it? It's your boyfriend's fault
Who did it? It's the president's fault
Who's really to blame here?
It's your own damn fault
Who to blame?
Who to blame?

C'mon and play
C'mon and play blame game
I know you'll find
It'll make you feel better on the inside now-

Blame it on someone who's younger
Blame it on someone who's weaker
Blame it on someone who's dead
No-one ever questions them
and-

Who did it? It's your brother's fault
Who did it?
It's your sister's fault
Who did it?

It's your baby daddy's fault
Who's really to blame here?
It's your own damn fault.
Who to blame? Who to blame? Who to blame? Who to
blame?

Blame it on someone you're hating
Blame it on someone who's innocent
Blame it on someone who's old
They won't remember anyway

Who did it? It's the liquor's fault
Who did it?
It's the ecstasy's fault
Who did it?
It's the white shark's fault
Who's really to blame here?
It's your own damn fault

Who did it?
It's the dirty needle's fault
Who did it?
It's that stupid hooker's fault?
Who did it?
It's the STD's fault
Who's really to blame here?
It's your own damn fault.
