Cease to exist

If anyone knew what I have done
if anyone knew where I have been
So many wars I never won
So many sorrows that I have seen...

All of my friends will be there...

I never knew which way to turn
I never knew where to go
Always left every bridge to burn
Always thought I walked too slow...

All of my friends will be there...

All of my friends will be there...

Ready to go on to leave this life
Into heaven or hell
Nothing would keep me, no children, no wife
If I go to hell I know really know

All of my friends will be there...
