Now everyones getting off
Ended up in such a
Such a familiar phase
When it started
It was all so foreign to me
The company I keep

Whos taking sides?
Keeps the lights on round here
Now give me the line
Try to explain to me
How it is you sleep
The company I keep

Who you're calling cheap?
Anyone can see
That I paid thru the nose
Some couldnt see that no one ever sees, that

The company I keep
No

I don't mind mistakes
I go crawling back for anyone else's sake
I admit this associations bleak
The company I keep

So everyone shut yr mouths, now
Sit back and watch it
Such a smile
What an awful thing for anyone else to see
I guess that's just The company I keep
No
That's the company I keep
