Joey: Don't turn off the lights now!
Don't turn off the lights now!
Donnie: N K O T B S B Baby
Jordan: I know we haven't been getting along, long at
all, I don't think
That it's time.
AJ: You and I can give in
Just call, call it off
I don't wanna say goodbye
Joey: Cause just when I think we're through
Joey & Brian: The memories come flooding back
Howie: It's like instantly I love you like that
Brian: I was on fire for you
Brian & Howie: We could get it back again
Brian: If you don't say it's the end, the end

So don't turn out the lights now, lights now, lights now
Cause in a minute we'll be feeling like never before
We'll light up the night now, night now,
Right now
I'll be whatever you need and more
So don't turn out the lights now
Don't turn out the lights now

Jordan: I'mma give you a minute to clear, clear your
head
Take the rest of the night, yeah
Donnie: Take your time
Nick: You're gonna see that it's empty without me in
your bed
Baby, you'll change your mind
Brian: Cause just when I think we're through
The memories come flooding back
And instantly you love me like that
Joey: I still got this fire for you, we can get it back
again. If you don't
Say it's the end, the end

So don't turn out the lights now, lights now lights now
Cause in a minute we'll be feeling like never before
We'll light up the night now, night now,

Right now,
I'll be whatever you need and more
So don't turn out the lights now
Don't turn out the lights now

Howie: We're down to the wire
Donnie whisper: Let's get high girl
Howie: We gotta let go and take a chance
Donnie: Don't be afraid
Howie: I'll take it higher
Donnie: Let us take you higher
Nick: Till the end, till the end, till the end YEAH! Yeah
Donnie: N K O T B S B Baby
Hey!

So don't turn out the lights now, lights now lights now
Cause in a minute we'll be feeling like never before
We'll light up the night now, niht now,
Right now
I'll be whatever you need and more
So don't turn out the lights now, lights now lights now
Cause in a minute we'll be feeling like never before
We'll light up the night now, night now,
Right now
I'll be whatever you need and more
So don't turn out the lights now
So don't turn out the lights now
Don't turn out the lights now
So don't turn out the lights now
Don't turn out the lights now
