[Redman]

Yo yo yo

I got the, forty acres, without the effin mule

Doc Ike Turner, givin mics audio abuse

I smack a big mouth trick, and her babysitter

And her lesbian friend, and that brother with her

I don't give a eff, I smack blood out a midget

My tactics make Evil Dee say, "Come on kick it!"

A black 5 with rims which you can spot me in

When I die, I snatch you like Doc Kervorkian

So turn the beat up, while NARC's got me on sweep up

I'm lucky, I usually tote more Gunz than Peter

I eff you up to where your forehead and cut meet up

You wanna box I +Square+ up more than Madison
