F/ Wu-Tang Clan

[Cappadonna talking]

Cappadonna up in here maintainin'

Big Prince know what I'm sayin'

Ghostface Killah, Raekwon the Chef, Jon ya know

[Cappadonna]

It's like fifty Stapleton, Don fifty Park Hill

All of y'all other crab niggas better chill

What, Stapleton, Park Hill organization

Death threat, we cover square inches of the nation

Avoid confrontation by all means necessary

Gold chains and gold teeth is definitely mandatory

When you come through Tony Touch territory

The burial ground sounds become a whole different story

Acapell jobs are fat jobs

New Cappadonna have props for years

On the intercom, my outcome, no they couldn't get none

Cause I wreck mics for fun

Casually flowin' smack me if I'm not knowin'

Give em' a chance to understand what they hearin'

Lick shots ya better maintain ya military bearin'

Cause in 97 Illuminati carry glocks

But I can't afford to forfeit cause I was born to rock they knots

Danger if you ever want more anger

Bring ya whole drive by family into my chamber

Don is more maculate, Rae is more maculate

Ghost is more maculate, Prince came to tackle it

Who holdin' me down, 96 representin' for 97

All night grove right here

[* Ghostface Killah begins talking, fades into Wu Tang
Part 2]
