Today for the first time

For the first time

You took my hand

Today for the first time

Touched a warm heart

What a lucky girl

Cause you opened your heart

And you gave it to me

So don't tell me that you don't love me

You opened your heart

And you gave it to me

So don't tell me that you don't need me

For me for me

You're the one you're the world

Someone is anyone there

My body needs warmth

It's a mad mad world

Today for the first time

I heard my heart stop

As he flew away

Open your heart

And give it to me
And don't tell me that you don't love me
Open your heart
And give it to me
And don't tell me that you don't need me
Sometimes I just fall and break
Sometimes it just overflows
I can't take no more
I can't take no more no more
Open your heart â€¦
Tonight for the first time
All the stars shine
But you're the brightest one
My love
