"He's Number One"

He's the star of the nation
He's the man of your heart
He's the wind of the emotion
That could take you apart
On your radio on your video
On your stereo on your favorite show
He's brand new sensation
He's a dream come true
It's a bright creation of a man who knew
What you like to see
What you wanna be
It's your destiny
It's your fantasy

(chorus)

Hey tell me why he always make me cry
Hey tell me why he said the last goodbye
Hey tell me why he's got no time to stay
He doesn't care about me
He's number one
He's number one
He's number one
He's number one

To celebration of best danced set
He's the only sensation you will never forget
On your radio on your video
On your stereo on your favorite show

(chorus)
