

Far Cry

"Dear Queen"

All the men in that big world don't live for sunshine but
live for gold

But since i was lil' child I've been living in a hole for
feelings I've never

Expected to have in heart

Expected to feel for a girl like you...

You were so lonely girl and I was so lonely guy

So the pullman went in to the road and our lips was
closer

I was you prince

You were my dear queen...

Dear lady what you're doing to me?

Just lady, I can't see

One day has born without any flight

But you turn my heart up to the sky

So lady listen to me...

One more time listen to me!

One more word listen to me!!

You were the only one and nothing else

Yeah!!!

So the summer come in to my sin and you left me
behind the "Madigan"

My heart couldn't stop to cry and my soul couldn't stop

to feel blue...

Now I am nothing

You're still my dear queen...

Dear friend what you wanna be?

Maybe a spaceman or something like that

If you wanna live alone and free don't fall in the trick
called "love"

Coz she killed me, she's my dark queen

Lady i'm waiting for you...

dear lady what you are doing with me

just lady, i can't see

one day is born without any flight

but you turn my heart to the sky

so lady listen to me, one more time listen to me

one more word listen to me

you were the only one and nothing else

yeah
