Manhattan Skyline, surround me
Just like a lady, you're still holding
Your light burning for me to see
Cause I'd do most anything
for all those nights that you bring to me
All of your love
I've been so long, in the city
The city has been, so long inside of me
Bin so long, it's a pity, I'm so far away
But I still do, The Big Apple Waltz
I'd buy an empire, in any state
Building the future, around you
Cause where love grows, it's never too late
We'll paint a heart, on the wall
For the whole of the world to see
All of my love
I've been so long, in the city
The city has been, so long inside of me
Bin so long, it's a pity, I'm so far away
But I still do, The Big Apple Waltz
Loving you, is my feeling of de j'Ã©Ã©-vu
Loving you, I know it's true
Oh yeah,
we'll paint a heart, on the wall
For the whole of the world to see
All of our love
I've been so long, in the city
The city has been, so long inside of me
Bin so long, it's a pity, I'm so far away
But I still do, The Big Apple Waltz (Till fade)
