You crawled into my bed like a cockroach
The things you said
Made me lose my head like a waterfall
You've got a mouth like a DC ten but I love you

You've got me in your arms
And your special charms, my
You, you got my head in circles
Ooh, loved you
And I don't want nobody but you

You fucking laugh at my inhibition
You made a fuss 'bout my Oedipus
From my mother's side
You feel away like a Sherman Tank but I love you

You're gonna take me there
I don't really care, my
You got my head in circles
Ooh, loved you
And I don't want nobody but you

Turn you run to me you bring your Mama
The way she freaks gives me the creeps
She's a mainline ma'am

You've got to know
What you're doin' to your Daddy
'Cos I love you

You've got me in your arms
Ooh, your precious charms
You, you got my head in circles
Ooh, loved you
