Just give the lady some respect, boy  
She don't need your neglect, boy  
Do you know that if she were mine?  
I would give her some more time

Yes, it's you I'm talking to, sir  
Listen or you gonna lose her  
Waking up to the truth there  
Just give the lady what you think she needs  
Just give the lady what you know she needs

And if you let her get to know you better  
She'll never let you down  
Oh, oh the lady needs to know you

If anything you said should upset her  
Don't let it turn you 'round  
Oh, oh the lady needs to know you  
The lady needs to know you  
The lady needs to know

You feel you need some one to turn to  
But you're afraid that love will burn you  
And your head is cryin', save me  
Talk it out with the lady

Yes, it's you I'm talking to, sir  
Listen or you gonna lose her  
Oh, just give the lady what you think she needs  
Just give the lady what you know she needs

And if you let her get to know you better  
She'll never let you down  
Oh, oh the lady needs to know you

If anything you said should upset her  
Don't let it turn you 'round  
Oh, oh the lady needs to know you  
The lady needs to

Just give the lady some respect, boy  
She don't need your neglect, boy

Do you know that if she were mine?  
I would give her some more time

Yes, it's you I'm talking to, sir  
Listen or you gonna lose her  
(You gonna lose her)  
So give the lady what she really needs

Just let her get to know you better  
She'll never let you down  
Oh, oh, the lady needs to know you

If anything you say should upset her  
Don't let it turn you 'round  
Oh, oh the lady needs to know you  
Oh, oh the lady needs to know you

Oh, oh the lady needs to know you  
Oh, oh the lady needs to know you  
Oh, oh the lady needs to know you
