

The Sweet "Identity Crisis"

Visit "[Identity Crisis](#)" on MotoLyrics.com

Everybody loves a star, makes no difference who you
are
It's a good game when you're winning
They don't see you in the rain, when your crisis are pain
Do I find a new beginning?

No time to lose
Identity crisis, I'm going through my identity crisis
Identity crisis, I'm going through my identity crisis

You loved the fame and all it brings, but it's just
roundabouts in swings
You never know which way you're goin'
You can always fall from grace, even though you're hot
The race is never won until it's over

Out in the cold
Identity crisis, I'm going through my identity crisis
Identity crisis, I'm going through my identity crisis
Crisis

My identity crisis, my identity crisis

There are bridges to be crossed, got no time to count
the cost
When the interest's gettin' higher
Money helps to pass the time, but it won't buy peace of
mind
So much more to light the fire

Burning inside
Identity crisis, I'm going through my identity crisis
Identity crisis, I'm going through my identity crisis
Identity crisis, no identity crisis
