Let her dance
Hey,hey,hey,hey,hey
Let her dance

Just because you don't like dancin'
Never see you on the floor
Doesn't mean that she's gotta stop,
Let her do it some more
Let her dance
Let her dance
Let her dance
Let her dance
Let her dance
Let her dance
Let her dance
Let her dance
Let her dance

You can watch her from the shadows
Or join the people on the wall,hey,hey
Where everybody can look at her
But there's no touching at all

Let her dance
Let her dance
Let her dance
Let her dance
Let her dance
Let her dance
Let her dance
Let her dance

Let her dance you don't want to crowd her,dance
She is in another world, dance
Everybody knows her, dance,the girl must dance
Let her dance

The way you handle that woman
You're gonna put out her flame
You wanna see what she's really got
Let her do it again and again

Let her dance

Let her dance
Let her dance
Let her dance

Ooh, I'm gonna dance with her, let her dance
Let her dance, you don't wanna crowd her
Dance, she is another world, dance, everybody knows
her
The girl must dance, let her dance

Dance, let her dance, hey, hey, hey dance
Ooh let her dance

There are rules in love and war
Everything goes when you're on the floor

Let her dance
Let her dance, you do't want to crowd her
Dance, she is in another world, dance, everybody
knows her
The girl must dance
Let her dance, let her dance, let her dance, dance
Let her dance, let her dance, let her dance, dance
Let her dance, let her dance, let her dance, let her
dance
