Never too young  
Never too young

Growin' up, can take so long  
Everything, you do is wrong  
They don't let you, out at night  
And nothing that, you do is right

You know when you hear it  
You gotta be near it

Chorus  
Never too young  
Never too young  
Never too young to feel your soul  
Cut your teeth on rock & roll  
Never too young  
When you feel, you're in a cage  
Out of bounds, underage  
Magazines, you have to hide  
Videos, that you're denied

You know when you hear it  
You gotta be near it

Chorus
