I was a young boy
Yeah, she was young too
So in love but they don't understand
Games that we played

Blue shadows in a doorway
Stealing time forbidden kisses
I wanted to stay
But I had to go away

Silver bird come take me home to you
Silver bird come take me home to you

Well, it's been five years
Unjustified years
Other girls that just don't make it
Face to face with you

Red sunset through my window
I won't sleep tonight, I'm comin' home
Please let it be
That you're waiting there for me

Silver bird come take me home to you
Silver bird come take me home to you

Silver bird come take me home to you
Silver bird come take me home to you

Silver bird, I'm comin' back
I know, you'll be waitin' for me
Silver bird
