If you don't go down on me someone else will

So tired of your trying
Take it as it comes
You've been hangin' round all weekend
I guess i'd better give you one

If you don't go down on me someone else will

You love me in the kitchen
You love me in the hall
But when you're in the dressing room
You love anyone at all
If you don't go down on me someone else will

You put on all your actions
But i don't give a damn
Just give me satisfaction
Cause thats just where i am

If you don't go down on me someone else will
