Chorus

Suck, suck, suck it and see
The taste of life is never wasted on me
Suck, suck, suck it and see

You've got to take a chance or three
To get away from this monotony
The years that really pass you by
Nobody sees you cry

So what if you bruise yourself
You might be lucky and improve yourself
If you're livin' on the bottom line
All you've got to do is try
Chorus

You'll never get the break you want
Unless you get out there and take it on
The world will never pass you by
If you're really gonna try

Chorus (Repeat at various stages of the song)
