Chorus

Too much talking tells you nothing  
Tells you nothing you don't know  
Let you thinking do the walking  
Too much talking  
Too much talking  
Too much talking tells you nothing  
Tells you nothing you don't know

Don't sell your story like a preacher  
Together glory in their eyes  
Do what you can, to understand  
You know you can you do  
No matter how long or what your going thru

Chorus

Why do you try to be the teacher ?  
Of all the reaches for the sky  
Do what you can to understand  
You know you can you do  
No matter how long or what your going thru

Too much talking  
Too much talking  
Too much talking  
Too much  
Too much talking tells you nothing  
Tells you nothing you don't know  
Let you thinking thru your walking  
Too much talking  
Too much talking
