You've better believed me
I've been right here for you
Wastin' all these years
Shed so many tears - I still need you

Fell right into your arms
I couldn't resist your charms
You're cheating on me, why?
You fool me with a lie - I still need you

I've cried my last tear, lady
Let's give it time and maybe
We'll see before it's too long
We have played it all out wrong to

Wait till the morning comes
Wait for the rising sun
Wait till the fighting's done
I'm looking for excuses anymore
Too late to say 'farewell'
You've waved and you've cast your spell
There's no way I can learn
I've got nowhere to turn - I still need you

I've cried my last tear, lady
Let's give it time and maybe
We'll see before it's too long
We just played it all out wrong

Wait till the morning comes
Wait to the rising sun
Wait till the fighting's done
I'm not looking for excuses anymore

How much longer can this fight go on?
It seems it's now forever and a day
Is there any way?

Wait till the morning comes.....
'Till the morning comes
To the rising sun
Stay till the fighting's done

I'm not looking for excuses anymore....
