Like a wanderer, when I stay still,  
I am never at rest  
And like a joker, I'm honest  
only when what I say is in jest

When I go into the sunshine,  
the sun goes into a cloud  
And I get truly lonely  
only when I'm inside of a crowd

When I try to get rid of my troubles,  
they only increase  
And like a socialite, when I'm alone  
I am never at peace

The only people that fight me,  
are those with whom I agree  
So it is, so it has been,  
and so it ever shall be

When I try too hard,  
only then do I make a mistake  
So it is, so it has been,  
these are walls that never shall break

Like a joker, I'm honest  
only when what I say is in jest  
And like a wanderer, when I stay still,  
I am never at rest
