Cinderella are you really that happy
Cinderella are you really that lucky
I wanna know is your life like you dreamed

Here I am
Trying to find my way
Kissed so many frogs but I've never found a prince
Think their lying
I was promised much more than this
Where's my happy ever after as the (queen of the
kingdom)

Cinderella got a prince and a kingdom
Cinderella got the dream she was dreaming
I wanna know where is my fairytale (as the queen of the
kingdom)

Something's wrong
'Coz all my glass shoes break
And no one's ever helped this dansel in distress
The hell with this
I'm not gonna waste one time
I won't wait to find prince charming (as the queen of the
kingdom)

Cinderella is the queen of the kingdom
Cinderella got the dream she was dreaming
I wanna know where is my ending (as the queen of the
kingdom)

Cinderella got a prince and a kingdom
Cinderella got the dream she was dreaming
I wanna know where is my fairytale (as the queen of the
kingdom)

Cinderella are you really that happy
Cinderella are you really that lucky
I wanna know is your life like you dreamed
