"Just Another Day"

Visit "[Just Another Day](#)" on MotoLyrics.com

Just another day, just another day
Another name I'll say
Not over, but it's over anyway
Just another day, just another day
Another name I'll say
Not over, but it's over anyway

Always knew there would come a day
There would come a day we'd say
Bye, bye, bye
Now summer's gone and life moves on
And we're too old to
Cry, cry, cry
So hum a tune for me and you
Don't make it blue asking
Why, why, why
Let me see you smile for a while
For one more mile just try to sing for me
Won't you play for me
Just sing for me
Won't you play for me

Just another day, just another day
Another name I'll say
Not over, but it's over anyway
Just another day, just another day
Another name I'll say
Not over, but it's over anyway

Some may say, some may say it was a big mistake for
me to
Go, go, go
But I am water, life is rock, gotta find a way to
Flow, flow, flow
The road I chose, the road I chose, only God knows
where it
Goes, goes, goes
Ooh, sing for me

Just another day, just another day
Another name I'll say

Not over, but it's over anyway
Just another day, just another day
Another name I'll say
Not over, but it's over anyway

(It's over anyway, anyway
Just sing for me
Won't you play, baby)

May your dreams be big, and your problems small
And when the bad day comes I hope you
Fight, fight, fight
I hope you dance, I hope you love, I hope you live in the
Light, light, light
I won't forget, how could I forget, the way you look it
makes me
Shine, shine, shine
Ooh, sing for me

Just another day, just another day
Another name I'll say
Not over, but it's over anyway
Just another day, just another day
Another name I'll say
Not over, but it's over anyway

(It's over anyway
Anyway, anyway
Just sing for me
Won't you play for me, baby
Baby, bye, bye, bye!)
