

Sweethearts Of The Rodeo "Blue To The Bone"

I'm blue to the bone since my loving baby's up and
gone
All that I can do is sit and moan and be blue blue to the
bone

He said he'd always love me and stay right by my side
But that ain't what he's doing he's with someone new
tonight
While I'm blue to the bone...
[guitar]
I oughta let his leaving roll right off of me
But all that I feel rolling are teardrops down my cheeks
While I'm blue to the bone...
All that I can do is sit and moan and be blue blue to the
bone
I'm so blue blue to the bone
