(Paul Kennerley)

True love doesn't cost a dime  
Some men think they can buy your time  
I don't need a diamond on my hand  
What a fool I was, he's the heart of a man.

Chains of gold, proof if any  
When our love don't mean a thing  
All I want is someone to hold  
True love means more than chains of gold.

Sweet words whispered in the night  
Warm touch with arms that hold you tight  
These things a woman needs to feel loving  
Kove is wrong if love isn't real.

Chains of gold, proof if any  
When our love don't mean a thing  
All I want is someone to hold  
True love means more than chains of gold.

Chains of gold, proof if any  
When our love don't mean a thing  
All I want is someone to hold  
True love means more than chains of gold...
