(Matraca Berg - Janis Gill)

There's a full moon tonight  
Casting its light on this old bordertown  
Making my tears shine like diamonds  
Turning these streets into shadows of doubt  
I left my lover to toss and to turn in his dreams  
Help me amigo please what does this mean?

Come se dice I love you en Espanol  
Tonight when he's sleeping he's whispering Maria te amo  
Does a sweet senorita with sleepy brown eyes  
Dance in his dreams while he lays by my side.

Come se dice I love you en Espanol.  
Please I am desperate to know  
Does his face ever show on your side of town  
And is he ever seen with a girl named Maria  
Where can she be found?

I have a picture of him right here in my hand  
Help me amigo I don't understand  
Come se dice I love you en Espanol  
Please I am desperate to know  
Does his face ever show on your side of town  
And is he ever seen with a girl named Maria  
Where can she be found?

Come se dice I love you en Espanol.  
Ay ay ay ay ay ay ay...
