I have packed my clothes and made my plans to go  
At least a hundred times or more  
But every time I tried to leave your love behind  
I could not walk out that door

It's a hard road when you try to walk alone  
It takes a long time to find a love so strong  
If your heart is saying yes don't let your pride say no  
It's a hard road to go

I know, you're just like me, you've thought of being free  
'Cause I have seen it in your eyes  
You know I'm just like you I've thought about it too  
But not enough to say goodbye

It's a hard road when you try to walk alone  
It takes a long time to find a love so strong  
If your heart is saying yes don't let your pride say no  
It's a hard road to go

It's a hard road when you try to walk alone  
It takes a long time to find a love so strong  
If your heart is saying yes don't let your pride say no  
It's a hard road to go
