

Fat Mattress

"Highway"

Visit "[Highway](#)" on MotoLyrics.com

I was walking down a street
And I thought it was a highway not a byway.
Oh
I don't really care as long as it's not
A highway goin' my way I don't need that.
Looking in the distance I see a crowd of people

Wonder what they're doing
wonder what they're saying.
Hope they're thinking as well as talking.

Seems I never get the time
Or the feeling that sends you reeling anymore.
Oh
but I don't really care
as long as there's
A highway
goin' my way
I can head for
Looking in the distance I see a crowd of people.
Wonder what they're doing
wonder what they're saying.
Hope they're thinking as well as talking.
