baby my hearts on fire  
my soul is burnin too  
honey the moment my  
my lonely eyes met you  
everything seems to me  
so blurred so cloudy now  
there is no real meaning  
in my life except for you somehow

(chorus)  
baby you know im worth it  
come and kiss me again  
honey this is my prayer  
we should be together amen

baby you know im worth it  
come and kiss me again  
honey this is my prayer  
we should be together amen

people know our love is true  
when they look at us and say  
we could do that too  
but what they dont realise  
is that true love is like a game  
gotta learn the rules  
to know how to play

(chorus)  
baby you know im worth it  
come and kiss me again  
honey this is my prayer  
we should be together amen

baby you know im worth it  
come and kiss me again  
honey this is my prayer  
we should be together amen

two hearts beating  
to one same beat

never get tired  
never fall asleep(wo-oh-oh)

two hearts beating  
to one same beat  
never get tired  
never fall asleep

(chorus)  
baby you know im worth it  
come and kiss me again  
honey this is my prayer  
we should be together amen

baby you know im worth it  
come and kiss me again  
honey this is my prayer  
we should be together amen
