I drink all night, and I sleep all day  
I drink all night, and I sleep all day

You're feeling your way through the dark, but you can't  
get out  
You're feeling your way through the dark, but you can't  
get out  
You're feeling your way through the dark, but you can't  
get out  
You're feeling your way through the dark, but you can't  
get out

I've got my limbs tied up and a blindfold across my  
eyes  
A feelin' I know that I'm gonna have to tell a lie  
My hearts in my mouth, but my mind's in a furry cup  
A feeling you know that I'm dreaming, I can't wake up

I've got my limbs tied up and a blindfold across my  
eyes  
A feelin' I know that I'm gonna have to tell a lie  
My hearts in my mouth, but my minds in a furry cup  
A feeling you know that I'm dreaming, I can't wake up

I won't kiss, I won't tell  
I won't give, I won't go

You're feeling your way through the dark, but you can't  
get out  
You're feeling your way through the dark, but you can't  
get out  
You're feeling your way through the dark, but you can't  
get out  
You're feeling your way through the dark, but you can't  
get out

I've got my limbs tied up and a blindfold across my  
eyes  
A feelin' I know that I'm gonna have to tell a lie  
My hearts in my mouth, and my mind's in a furry cup  
Believin i know that I'm dreaming, I can't wake up

I've got my limbs tied up and a blindfold across my  
eyes  
A feelin' I know that I'm gonna have to tell a lie  
My hearts in my mouth, and my mind's in a furry cup  
A Feelin' i know that I'm dreaming, I can't wake up

I've got my limbs tied up and a blindfold across my  
eyes  
A feelin' I know that I'm gonna have to tell a lie  
My hearts in my mouth, and my mind's in a furry cup  
A Feelin' i know that I'm dreaming, I can't wake up

I'm feeling my way through the dark, but I can't get out  
I'm feeling my way through the dark, but I can't get out  
I can't get out! I can't get out!  
I'm feeling my way through the dark, but I can't get out  
I'm feeling my way through the dark, but I can't get out  
I'm feeling my way through the dark, but I can't get out  
I'm feeling my way through the dark, I can't get out
