Whoa whoa ooh  
Ooh ooh  
Whoa whoa  
Oh baby

Some lovers dazzle me with their limousines and  
pearls  
They wine and dine you and they promise you the  
world  
But then the party's over everything is changed  
The fire's gone and nothing else remains

With you  
It's more than just a passion  
With you  
I know that love will last

When you look in my eyes (whoa whoa)  
You lift me up so high  
Each and every time  
Each and every time  
And when the world is cold (whoa whoa)  
You're always there to hold  
Each and every time  
Each and every time

I've had to pay the price of knowing how to love  
And getting hooked on those who never could get  
enough  
You are the reason I can take another chance  
'Cause you know the meaning of a true romance

With you  
It's more than just a passion  
With you  
I know that love will last

When you look in my eyes (whoa whoa)  
You lift me up so high  
Each and every time  
Each and every time

And when the world is cold (whoa whoa)  
You're always there to hold  
Each and every time  
Each and every time  
Whenever you're around (whoa whoa)  
My heart's up in the clouds  
Each and every time  
Each and every time  
And when you take my hand (whoa whoa)  
I know you understand  
Each and every time  
Each and every time

Every time you call my name  
It thrills me just the same  
And I know I'll always feel this way

T-t-t-turn it out  
Whoa whoa

With you  
It's more than attraction  
With you  
I know this love will last

Whoa whoa

You're the one who makes me feel this way  
Always in your arms I'll stay  
Right here with you baby  
I'm yours and yours and yours alone  
You will always be the one  
And I don't mean maybe

Haven't got a taste for material things (whoa whoa)  
Boy I don't need no diamond ring  
You know I know just what true love can bring  
You're my everything (whoa whoa)  
My everything (each and every time)  
What true love can bring

When you look in my eyes (whoa whoa)  
You lift me up so high (oh baby)  
Each and every time  
Each and every time  
And when the world is cold (whoa whoa)  
You're always there to hold (you're always there to hold)  
Each and every time (huh)  
Each and every time (every little time)  
Whenever you're around (whenever you're around)

My heart's up in the clouds (my heart's up in the  
clouds)  
Each and every time  
Each and every time  
And when you take my hand  
I know you understand  
Each and every time  
Each and every time
