All alone silence fills my room
But in a memory
I hear you calling me
Close my eyes and I'm there with you
Like it was like yesterday
But then it fades away
FIRST CHORUS:
Take me back turn back the hands of time
When you kissed me in the warm September rain
(warm September rain)
Back before my heart was filled with pain
If only we could be in love that way again
SECOND CHORUS:
If Wishes Came True
And of all the dreams of I never wondering I be holding
you
If Wishes Came True
And I would that someone always special in your heart
We will still be lovers
Not apart
If Wishes Came True
Now you're gone and I am on my own
Feeling lost inside
Since you said goodbye
In my dreams I can still feel your touch
Lying next to me
Feeling ecstasy
REPEAT CHORUS 1:
REPEAT CHORUS 2:
I love you madly
I need you badly
Give our love one more chance
INSTRUMENTAL BREAK:
REPEAT CHORUS 2:
INSTRUMENTAL
INSTRUMENTAL BREAKS
