I'll never let you go
Never let you go
I'll hold you tight all night
I'll never let you go

I've had my share of heartache and pain
I've been with users, and losers
And seen all of their games
But no one makes me feel the way you do
There was a time when I was so all alone
There was no lover, no other
I could call my own
But now that I met you
Those days are through
I'll never let you go

Chorus:
I'll keep you on my heart
Never let you go
Until the end of time
I'll hold you tight all night
Never let you go

You are the earth and I am the sea
The world together, forever
I'll be all that you need
You and I were always meant to be
If you should leave
And go your own way
I'll still love, I will survive
For every night I pray
If you will find your way
Right back to me
I'll never let you go

Chorus

Day after day and night after night
I screamed your name and you just came
Now everything's alright
Loving you has made my life complete

When I'm with you
It's like a dream has come true
My emotions start to blow
My skies are blue and my eyes gaze on you
And I think that you should know
I'll never let you go

Chorus(2x)
