Oh Susan don't lose your cool
But I'm leaving you on your own
Don't tell me you can't be saved
You can find a way
Whoa oh to hold on

Yeah you've got the world to see
You've got everything that you need
But you ain't comatose
So why can't you move?

I'm all out of sympathy
When you come round you'll see that I'm gone

Who's gonna love you baby?
Who's gonna love you now?
Lazy Susan turn yourself around

Who's gonna love you baby?
Who's gonna love you now?
Lazy Susan turn yourself around

Oh you're the queen of the living room
Sleep through the afternoon
Smoke out the night

You're holding out at the starting line
You're just wasting time
Whoa oh it's not right

Yeah you've got the world to see
You've got everything that you need
But you ain't listening you're watching the view

I'm all out of sympathy
When you come round you'll see that I'm gone

Who's gonna love you baby?
Who's gonna love you now?
Lazy Susan turn yourself around

Who's gonna love you baby?

Who's gonna love you now?
Lazy Susan turn yourself around

Who's gonna love you baby?
Oh oh oh (x2)

Yeah, yeah, yeah

Who's gonna love you baby?
Who's gonna love you now?
Lazy Susan turn yourself around

Who's gonna love you baby?
Who's gonna love you now?
Lazy Susan turn yourself around

Who's gonna love you baby?
Who's gonna love you now?
Lazy Susan turn yourself around

Who's gonna love you baby?
Who's gonna love you now?
Lazy Susan turn yourself around

Who's gonna love you baby?
Who's gonna love you now?
Lazy Susan turn yourself around
